WORK EXPERIENCE

Chicas en Tecnología

Co-founder

March 2015 – present

We work to encourage, inspire and educate high school girls aged 13 to 16 to pursue careers in technology and engineering.

- In our 4 days intensive program called **Programando un Mundo Mejor** -Programming a better world- these girls identify a problem in their communities and create a mobile app help solving it.
Over 200 girls from 50 schools participated in this program and they created apps for Teenage Pregnancy, Bullying, Street Harassment, Book Sharing and many more. [more-info](#)
- We worked in a 3-month curricula free and open to all teachers that want to create a Chicas en Tecnología Club at the school.
- We support our alumni by meeting often with all of them. We create a network of peers & mentors in which they continue learning. [more-info](#)
- We received a Google RISE Award and our program has been declared of **Public Interest** by the city Government.

Fundación Huesped

Consultant / Program Manager

December 2016 – March 2017

Fundación Huesped is an Argentine organization that works in the public health field focusing on HIV/AIDS, STIs, as well as sexual and reproductive health.

I did a 3-months consulting job to help coordinating Fundación Huesped's technical projects implemented by external providers.

Gobierno Abierto, Argentina Government

May 2015 – August 2016

■ Subsecretaría de Innovación Pública y Gobierno Abierto, Argentina Government

Team Manager

Our team was in charge of creating, obtaining, publishing and generating products and visualizations with Open Data.

I coordinated a team of 8 programmers, devops and UX designers in the Open Data office in the Argentina Government.

■ Laboratorio de Gobierno, Buenos Aires City Government

Digital Innovation Manager

Our team was in charge developing products, data visualization and internal tools that generate and use open data.

I coordinated a team of three programmers and one UX designer.

Google, Mountain View, USA

Software Engineering Intern

December 2013 – February 2014

Internship hosted by the engEDU team called CS Academy. This team designs and runs all the global educational program inside and outside Google. I coded mostly in Python with App Engine.

Manas Technology Solutions - InSTEDD iLab Latam

Full Stack Developer

February 2009 – May 2015

Manas is company partnered with InSTEDD, an NGO specialized in building integral solutions for health, humanitarian and educational purposes which targets users in Africa, Southeast Asia and Latin America. Coded: Webapps in Ruby on Rails + Knockout.js, Android and iPhone apps and infrastructure projects using C#.
